OFFICE OF  
SUPERINTENDENT  
U. S. MINT AT DENVER

November 30, 1967

Mrs. Marian N. Rossmiller  
Superintendent  
United States Mint  
Denver, Colorado 80204

Dear Mrs. Rossmiller:

You are authorized to make 22,000 U. S. Dollar size blanks, 900 fine silver, to fill foreign coinage orders. They should be shipped in the usual manner under the contract for shipping half dollar blanks to San Francisco.

It is requested that maximum security be maintained over the blanks and that control be established immediately after blanking by weight in troy ounces, and by piece count. The blanks should be bagged after the counting operation, 1,000 pieces per bag, and the bags closed by sewing. The blanks in sewn bags are to be shipped to San Francisco in locked tanks. Each tank will show the weight and piece count in that container.

Sincerely,

Eva Adams

Director of the Mint

# HANDY & HARMAN

850 THIRD AVENUE • NEW YORK, N.Y. 10022

AREA CODE 212 PL 2-3400

November 29, 1967

Superintendent  
U. S. Mint  
Treasury Department  
Denver, Colorado

Attention: Mr. C. Miller

Gentlemen:

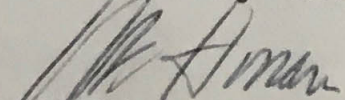

This is to advise that our truck scheduled to arrive at the Denver Mint Tuesday, December 5, 1967, will contain approximately 128,700 ounces of silver-copper bimetal that shows occasional rashes of small chafing marks. These marks are extremely shallow in nature. They are virtually impossible to measure upon mounting sectioned specimens. A small coupon showing this condition is enclosed.

The material in question will be contained in box Nos. 6, 7, 8, 9 and 10.

It is our opinion the strip will make satisfactory coins. In fact, there was some question whether your office should be notified of the condition because it would probably be processed unnoticed. However, we zealously guard our record of having supplied highly satisfactory material since the inception of the program. We obviously do not want to do anything that will jeopardize that record.

We will assume the material is satisfactory unless we hear to the contrary. Incidentally, we do not expect any significant recurrence of this condition.

Yours very truly,

  
William K. Honan, Manager  
Industrial Products Division

# Memorandum

TO : Harry Lawrence, Superintendent Coining

DATE: May 5, 1967

FROM : John Collins, Cost Accounting

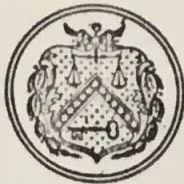

SUBJECT: Special Silver Ingots for Medal Production, Philadelphia Mint,  
Re: D/M Letter dated 5/2/67

Rolling, Cutting, Slab Annealing and Slittering Silver  
Ingots.

Job request Number 8242

*Rolling & Cutting*

OFFICE OF  
DIRECTOR OF THE MINT

TREASURY DEPARTMENT  
WASHINGTON, D.C. 20220

May 2, 1967

RECEIVED

MAY 4 - 1967

OFFICE OF  
SUPERINTENDENT  
U. S. MINT AT DENVER

Mrs. Fern V. Miller  
Superintendent  
United States Mint  
Denver, Colorado 80204

Dear Mrs. Miller:

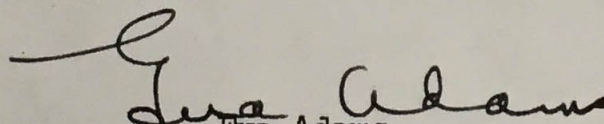

You are requested to fabricate and ship to the Philadelphia Mint the following alloys to be used in medal production:

1. Approximately 2,000 pounds .900 fine silver rolled to .085", gauge +/- .0015", slit and trimmed to 6" wide.
2. Approximately 400 pounds, .900 fine silver rolled to .300 gauge +/- .010", cut into sections three to four feet long.
3. Approximately 400 pounds .925 fine silver rolled to .300 gauge, +/- .010", cut into sections three to four feet long.

The absence of a slab annealing furnace and a slitter at Philadelphia makes it impossible for them to fabricate the above material.

Thank you for your cooperation.

Sincerely,

  
Eva Adams  
Director of the Mint
